JOIN A DISTINGUISHED GROUP OF ENGAGED ORGANIZATIONS AND CITIZENS WHO BELIEVE THAT:

- A strong West within a strong Canada needs an independent, respected voice with a long-term view;
- Sound public policy relies on evidence-based research; and,
- Engaged leadership from civil society, industry, academia and government leads to real change.

If you share these beliefs, help us build better public policy in Canada.

Our supporters tell us that they contribute because they value the work that we do and want it to continue. Supporters become part of an engaged public policy community. You may wish to support a specific project that needs additional funding, a specific activity such as roundtable convening or you may wish to support the range of our work.

SOLUTIONS THAT MATTER

The Canada West Foundation's research explores the big issues that affect the West and all of Canada. We do in-depth research and analysis. We bring people together to discuss the options, build trust and find solutions. We then take those ideas and recommendations to key decision-makers as well as to the public at large, where they inform the important policy debates of the day. Because we are non-partisan, objective, and good at what we do, we have credibility. And because we have credibility, **we have impact.**

This year, our focus includes how to:

- fix Bill C-69 impact assessment legislation
- assign responsibility for GHG emissions
- remove regulatory barriers to innovation
- build effective Indigenous-resource partnerships
- engage with China
- deal with trade disruption
- develop a globally competitive plant ingredient processing sector
- build competency frameworks to transform jobs and hiring
- improve basic skills to boost economic competitiveness

VALUE TO CONTRIBUTORS

Value comes from three things. First, you will be recognized as part of a community that supports better public policy. Second is the exchange of ideas. Supporters are invited to participate in events with other engaged leaders and thinkers from diverse perspectives. We, in turn, keep you up-to-date on key issues through our reports, commentaries and our in-person, tailored "What Now?" briefings. Most importantly, by funding work that has impact on issues that matter to you, you become part of the solution.

The benefits of each category of supporter are listed on the reverse, and a pledge form is included. Join us!

IMPACT

Our work gets seen by the people who matter and it leads to better public policy. Here is why:

- **Our work has credibility:** We are recognized as a truly non-partisan, independent, constructive, think tank.
- **We are evidence-based:** We draw from broad networks in academia, industry, and NGOs. Our reports are reviewed by practitioners and peers to ensure both accuracy and relevance.
- **We find the common seams:** We work with all governments and interest groups, regardless of political affiliation.
- **We understand what policy-makers need:** We engage regularly with senior decision-makers in government in both the public service and political leadership.
- **We provide arm's-length, third party validation:** We test solutions and ask the questions others cannot.
- **We convene the right people:** We bring together fresh perspectives to solve complex problems.
- **We inform public discussion:** Our reports and commentaries are clear, concise and easy to understand. Leading regional and national media seek us out.
- **We are a voice for the West:** We believe that what is good for the West is good for Canada.
